

### Why I Love Tables:

- They take up less space.
- They provide a community feel.
- They don't shift.
- Children don't waste time looking for books, folders, and whatnot.
- They give you flexible seating.
- They promote inquiry-based, hands-on, insert other buzzwords that good teachers are supposed to use here, learning.
- You'll never find a moldy snack "in" a table. Can't say the same for desks.
- They support cooperative learning.
- They provide spaces for aides / volunteers to work with small groups.
- Uneven desks make me nuts.
- They are easy to clean.
